PROFESSIONAL SUMMARY

B.E. Computer Science and Engineering (Cyber Security) student at Rathinam Technical Campus with interests in cybersecurity, ethical hacking, network security, programming, and software development. Enjoys building practical projects, exploring emerging technologies, and collaborating with teams in hackathons. Seeking opportunities to strengthen technical skills and contribute to secure, useful software solutions.

EDUCATION

B.E. Computer Science and Engineering (Cyber Security) | Rathinam Technical Campus
2025–2029 | Previous Academic Year CGPA: **8.11 / 10**

TECHNICAL SKILLS

Programming: C, C++, Java, Python, JavaScript, Dart

Cybersecurity: Cybersecurity fundamentals, ethical hacking fundamentals, network security, Linux, networking fundamentals, digital forensics

Web Development: HTML5, CSS3, React.js, Tailwind CSS, FastAPI

Tools & Platforms: Git, GitHub, Visual Studio Code, Figma, PostgreSQL, Supabase, Flutter

SELECTED PROJECTS

CYBERSHEILD — Cybersecurity-focused project. GitHub

DR. SOS — Project focused on safety and emergency assistance. GitHub

EXPENSE TRACKER — Personal expense-tracking application. GitHub

ZERO PLUS — Software project; implementation details should be confirmed from the repository. GitHub

TECH FORGE — Team/technology project associated with collaborative development. GitHub

HACKATHONS & EXPERIENCES

Open Agent Hackathon 2026 | *GenAI.Works*
Participated with Team TECH FORGE; contributed to team leadership, coordination, technology exploration, and collaborative problem-solving.

KPR College of Technology Hackathon | *12-hour software hackathon*
Collaborated on rapid prototyping, technical problem-solving, and software development under time constraints.

Smart Horizon 2026 Grand Finale | *Hackathon*
Participated in project development, innovation, and teamwork.

AWS Builder Center – Future Builders Connect | *Technology workshop*
Engaged with AWS and developer-community learning and networking.

LEADERSHIP & COLLABORATION

Team TECH FORGE — Team coordination, collaborative development, technical discussions, project planning, and problem-solving through hackathons and project work.

LEARN. BUILD. SECURE. INNOVATE.
